Cordless Phone Support Automotive & Communication Products Radio Scanners Two-Way Radios CB Radios Dashcams Radar Detectors Marine Radios Video Security CC0 Public Domain/timak/Wikimedia Commons Landlines might seem a thing of the past, but many people still prefer them to a cell phone at home, especially if they live in an area with poor signal. Here are 10 of the best-rated cordless phones on the market. Panasonic Link2Cell KK-TG9541B The Panasonic KK-TG9541B is a cordless phone in the manufacturer's Link2Cell range. It has Bluetooth support, noise reduction and a digital answering system, making it ideal for the modern home. CC BY 2.0/midi.ca/Flickr VTech CS6719-15 DECT 6.0 Available in a choice of silver, blue or red, the VTech CS6719-15 DECT 6.0 is packed with features. These include Caller ID, expandability for up to five handsets and a power-conserving ECO Mode. CC BY-SA 3.0/Sanjay Acharya/Wikimedia Commons Panasonic KK-TG2225 This model is popular for offices, even though it has been discontinued. In part, this is because the system, which starts with two handsets, can be expanded for up to six. It also automatically picks up a call when the phone is removed from the base. CC0/Alexas Fotos/Pixabay AT&T CRL82312 The AT&T CRL82312 comes with three handsets as standard and easy-to-read oversized, backlit buttons. These cordless phones also have large LCD screens, so they may be ideal for people with a vision impairment. CC0/Alexas Fotos/Pixabay Gigaset-E630A The Gigaset-E630A looks like a fairly basic cordless phone. In fact, it looks a little like an old cell phone with a stand. But its dust-, water- and shock-resistance makes it ideal for a busy household and perhaps especially well suited to the kitchen. CC BY 2.0/Charkrem/Flickr AEG Boomerang is this the best looking cordless phone on the market? Possibly! This limited edition model has a sleek, boomerang-shaped design with illuminated buttons and display. It also has an integrated answering machine with a capacity of 30 minutes. CC0/Alexas Fotos/Pixabay VTech DS6421-3 This cordless uses DECT 6.0 technology for excellent HD sound quality and improved range. It also has a Connect to Cell feature, allowing you to make and receive calls from your cell phone on the landline handset. CC BY-SA 2.0/matsuyuki/Flickr Gigaset-SB20A-DUO Here's another cordless phone that looks a little like an old cell. Its large 2.4-inch touchscreen and long battery life (20 hours talk time; 250 hours standby) make it a popular option. It also has storage space for up to 500 contacts. CC BY 2.0/Muffet/Flickr Panasonic Link2Cell KXTG7642M This is another cordless phone from Panasonic's Link2Cell range, which makes it easy to make and receive calls from your cell phone. It also has a wall-mountable design, advanced audio quality and Bluetooth capability. CC BY-SA 3.0/ed g2s/Wikimedia Commons VTech DS6671-3 This cordless phone system from VTech comes with a cordless hands-free headset, as well as two cordless handsets. And they all benefit from DECT 6.0 technology for top-quality sound and excellent range. There's also the option to connect it with your cell and even play your iPhone ringtone to differentiate calls coming in that way. GetHuman builds free tools and shares information amongst customers of companies like Uniden. For large companies that includes tools such as our GetHuman Phone, which allows you to call a company but skip the part where you wait on the line listening to their call technology music. If you look at our Chase Phone Number page, you can see an example of those free calling mechanisms and tips shared by other customers. Or take a look at the AAA Phone Number page. We've created these shortcuts and apps to try to help customers like you (and ourselves!) navigate the messy phone menus, hold times, and confusion with customer service, especially with larger companies like Chase or AAA. And as long as you keep sharing it with your friends and loved ones, we'll keep doing it. A: To purchase a battery directly from our online store Q: Where can I purchase a replacement phone? A: Uniden no produces cordless telephones, however some replacement models can be purchased online. We suggest the following only stores: www.amazon.com Q: How do I remove Silent Mode? A: To turn the Silent Mode OFF and for your handset to ring, press and hold the # key on your handset for about 10 seconds. Your handset will beep and this will indicate that the Silent Mode has been turned OFF. Q: My light keeps flashing/beeping and I don't have any messages pending. How can I make it stop? A: The flashing/beeping indicates you may have voice mail messages. Voicemail is provided by your telephone company and they would be able to assist you with retrieving those messages. Once you have listened to the new messages, the blinking light will stop. Q: I accidentally deleted a message, can I retrieve it? A: Unfortunately, once a message has been deleted it can't be retrieved. Q: I can't hear the caller but they can hear the me. A: We suggest the following handset reset procedure. Disconnect the Battery Press and Hold the Star and Pound key Reconnect the battery while holding down both keys Wait for the long beep Q: When I press the "Talk" key, there's no dial tone. When I press the Speakerphone key on the main base there is a dial tone. A: We suggest the following handset reset procedure. Disconnect the Battery Press and Hold the Star and Pound key Reconnect the battery while holding down both keys Wait for the long beep De-register and Re-register the handset, if this doesn't resolve the issue Clear the memory of the handset Q: I can hear the messages but they aren't being recorded A: When you have the letter A on your base, this is indicating that your Announce only feature is turned ON. Announce only will allow the caller to leave a message but will not record it. To turn the feature OFF: Press Menu/Sel Arrow down to Ans Setup Press Menu/Sel Arrow down to Record Time Press Menu/Sel Arrow down to OFF Press Menu/Sel. Date & Time Management > Date & Time On the Base or Handset (Depends on Model) 1) Press Menu & select "Global Setup" then select "Date & Time". 2) Enter the date and time using the number key pad (MM/DD/YY); select AM or PM. Use CID to move the cursor past a digit without changing it. 3) Press the Select to confirm. If you make a mistake simply start over from Step 1.
